

Elvish Detroja

OBJECTIVE

Passionate about digital products and my goal is to learn about several technologies and master one in particular. I want to significantly contribute to the growth of enterprises in the digital space using this experience and knowledge.

PROJECTS

Netflix - built Netflix clone with TMDB (the movie database) API and implementation of YouTube search API to link movie with movie trailer. This web app has Advance Search option, which is differentiating feature from another OTT platform. - **React**

CleanMe - design a business centric website, where admin panel is available to change content of site. this web app not depend on any external libraries. - **HTML, CSS, JavaScript**

DOT - an easy and interesting solution to learn a basic number for a kid - **JavaScript**

Radian News - real time auto updating news website. web app automatically fetch new post (data) from top news website and publish as post in RadianNews Website. - **WordPress**

MovieCounter.in - movie download website, where I manage more than 5000 unique visitor per day on infinite web server. - **WordPress**
