OBJECTIVE

Passionate about digital products and my goal is to learn about several technologies and master one in particular. I want to significantly contribute to the growth of enterprises in the digital space using this experience and knowledge.

EXPERIENCE

SCC IT Infotech
React Developer DEC 22 – JULY 23

PROJECTS

Puma Store - implementing all features, which require in any ecommerce site like user sign up, email verification, product filter with various parameter, cart and payment with stripe. - **React, Node, MongoDB**

Netflix - built Netflix clone with TMDB (the movie database) API and implementation of YouTube search API to link movie with movie trailer. This web app has Advance Search option, which is differentiating feature from another OTT platform. – **React JS**

CleanMe - design a business centric website, where admin panel is available to change content of site. this web app not deepend on any external libraries. - **HTML, CSS, JavaScript**

DOT - an easy and intersting solution to learn a basic number for a kid - **JavaScript**

MovieCounter.in - movie download website, where I manage more than 5000 unique visitor per day on infinite web server. – **WordPress**
